WHAT WAS CHECKED

The report separates logo/price/volume from real evidence. Missing order book, holder context or venue comparison stays visible instead of being sold as certainty. Missing evidence and re-check plan

This is not a decorative list. Every gap lowers evidence coverage or blocks the paid verdict until re-verification.

M01 · HOLDER/CONTEXT LANE

The evidence is not fully linked to a source, timestamp and usable freshness state. Attach a current supply, holder or unlock snapshot with an observation date.

M02 · ADVANCED LIQUIDITY/SLIPPAGE PACKET

The evidence is not fully linked to a source, timestamp and usable freshness state. Measure depth, liquidity and slippage on the same venue at the same observation time.

M03 · EXECUTION LIQUIDITY: REQUIRES VENUE-DEPTH CONFIRMATION

The evidence is not fully linked to a source, timestamp and usable freshness state. Measure depth, liquidity and slippage on the same venue at the same observation time.

M04 · 10K SLIPPAGE: SOURCE REQUIRED: ORDERBOOK SIMULATION

claim_requires_source Attach an independent second source and compare both value and timestamp.
