## WHAT WAS CHECKED

The case binds facts, translation, preview, PDF and assistant channels without adding new claims. Primary source: Source required: missing, missing, data coverage 0%, calibrated confidence: unavailable. No confirmed source row; the report remains in conservative mode. The Advanced report adds contradiction review, an evidence capsule, a source ledger and explicit conditions for reassessment.

## SECOND PROVIDER

Second provider is not confirmed, so Lens shows the gap instead of inventing confidence.

## MISSING DATA

1. Pending: Current provider data is absent. · 2. Pending: Commercial display and export rights are absent. · 3. Pending: Production browser and secure customer-delivery evidence is absent. The Advanced report adds contradiction review, an evidence capsule, a source ledger and explicit conditions for reassessment.

## NEXT STEP

Attach current data packets, rights, browser evidence and customer-comprehension labels before any promotion. The Advanced report adds contradiction review, an evidence capsule, a source ledger and explicit conditions for reassessment.

# Missing evidence and re-check plan

This is not a decorative list. Every gap lowers evidence coverage or blocks the paid verdict until re-verification.

## M01 · CURRENT PROVIDER DATA IS ABSENT.

The evidence is not fully linked to a source, timestamp and usable freshness state. Attach an independent second source and compare both value and timestamp.

## M02 · COMMERCIAL DISPLAY AND EXPORT RIGHTS ARE ABSENT.

The evidence is not fully linked to a source, timestamp and usable freshness state. Attach a concrete source with a timestamp and recompute the evidence-coverage cap.

## M03 · PRODUCTION BROWSER AND SECURE CUSTOMER-DELIVERY EVIDENCE IS ABSENT.

The evidence is not fully linked to a source, timestamp and usable freshness state. Attach the latest filing or reserve disclosure and store its reporting period.

## M04 · EXECUTION LIQUIDITY: SOURCE REQUIRED: VENUE LIQUIDITY ADAPTER

missing\_source · missing\_timestamp · claim\_requires\_source Attach an independent second source and compare both value and timestamp.

## NEXT SAFE STEP

Attach current data packets, rights, browser evidence and customer-comprehension labels before any promotion.

## EVIDENCE-COVERAGE WATERFALL

Data coverage: 0%. Calibrated confidence is unavailable; internal evidence ceilings are not published as confidence. Evidence packet: 0 confirmed, 3 limited, 2 missing, 3 locked. Next gap: Source ledger.
